

WIREWORKS PLUS

COMMERCIAL WELDED WIRE ARCHITECTURAL FENCE

TODAY'S PREFERRED CHOICE OVER CHAIN LINK FENCING

The WireWorks Plus fence system is the new standard in welded wire fencing. With this product Ameristar has a fence solution that will reduce dependency on chain link. WireWorks Plus provides unobstructed visibility, aesthetics, and security while delivering a value added fencing solution.

REINFORCED

Each panel is designed with a series of architectural "V" folds that reinforce the overall strength of the system. The wire mesh panels are fabricated in a pattern of horizontal and vertical wires welded at each intersection forming a rigid panel section.

MAINTENANCE-FREE

Ameristar's PermaCoat process has a proven record for high performance. The galvanized base material with dual-layer epoxy and polyester coating delivers a durable maintenance-free finish.

EASY INSTALLATION

This system has been engineered to simplify the installation process. Each component has been designed to improve efficiencies and boost installation output.

We take great pride in manufacturing "Made in the USA" products. Ameristar is located in Tulsa, Oklahoma and is American owned and operated.

Applications:

- Commercial Developments
- Parking Facilities
- Self Storage
- Parks & Recreation
- Schools & Universities
- Apartments (Multi-Family)
- Amusement Parks
- Healthcare Facilities

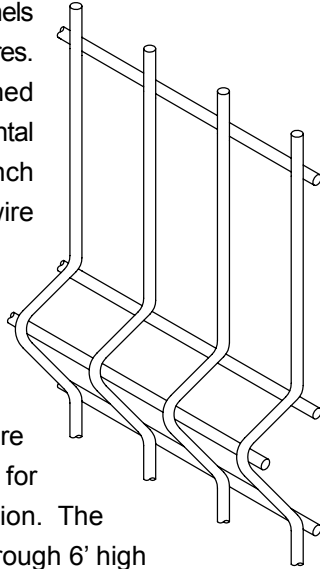

AMERISTAR[®]
FENCE PRODUCTS

WIREWORKS PLUS

COMMERCIAL WELDED WIRE ARCHITECTURAL FENCE

PANELS

The welded wire mesh panels are fabricated using 6ga. wires. Vertical wires are positioned every 2 inches, and horizontal wires are affixed at 6 inch intervals forming a rigid wire mesh section.

POSTS

Posts are manufactured of high tensile steel and are galvanized inside and out for superior corrosion protection. The post requirement for 4' through 6' high fence are 2" square 16 ga., and posts for 8' high fence are 2.5" square 16ga.

BRACKETS

Brackets are designed of high strength steel and are accompanied with security nuts to prevent any casual breach. Brackets are positioned along posts to guarantee a secure panel to post attachment. Panels are face mounted to posts with simple bracket leaving no gaps between panel and post.

OPTIONS

WireWorks Plus has the option to be fitted with barb-arm outriggers which can support barbwire or barbed tape obstacles providing a heightened visual deterrence.

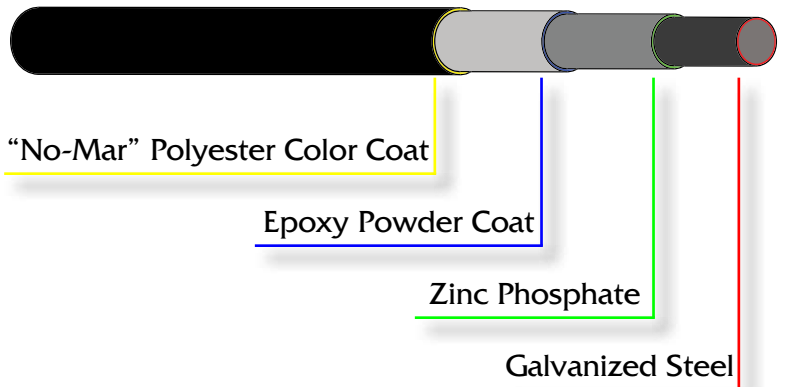

WARRANTY

WireWorks Plus is manufactured using the highest quality materials and is backed with Ameristar's 10 year warranty.

COATING

WireWorks Plus is protected with Ameristar's unique PermaCoat multi-layer coating process. The combination of these layers delivers a system that increases weathering resistance and product durability. The PermaCoat powder coating system results in finished surfaces with unmatched performance.

Panel Height	Number of "V" Folds	Post Size	Post Spacing	Mesh Size	Wire Diameter
4'	2	2" x 16ga.	96-1/2"	2" x 6"	6ga.
5'	2	2" x 16ga.			
6'	3	2" x 16ga.			
8'	4	2-1/2" x 16ga.			

Item No. 9793 / Effective: 11/2011
